DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement submitted on December 02, 2005 has been considered by the examiner and made of record. See attached form PTO-1449.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Claims 1-8 are allowed over prior art of record because the cited references either alone or combined do not disclose the claimed invention

"A portable terminal comprising a transmitter, a receiver, an alarm, a light detection part, and a decision part; the decision part decides whether or not to transmit a present in prescribed location indication signal based on the brightness of light detected by the light detection part."

"A portable terminal comprising a transmitter, a receiver, and an alarm; wherein the receiver receives a specified present signal from a specified portable terminal informing that it is present or in close proximity to a prescribed location, then the transmitter does not transmit a present indication signal in the prescribed location."

"An information provision system comprising a first and a second portable terminals that move together with a moving body, information provision equipment, and a server; wherein the first and the second terminals each transmits moving speed information to the information provision equipment, the information provision equipment notifies the server when the first portable terminal is near the information equipment, and the server uses the moving speed information, the current position of the
